

## US Channels Partner Security VT Broadcast

**Location:** Cisco Systems Office - Malvern

**Meeting Room:** Reading Terminal

**Address:** 301 Lindenwood Drive  
Suite 210  
Malvern, PA 19355 ([Directions](#))  
610-695-6000

**Dates/Times:** 04/11/2006 - 04/12/2006  
11:00AM-4:30PM Eastern

**Event Description:** The Security Channel Technical Advisory Team presents the third bi-annual Cisco Security Partner Virtual Team (VT) Meeting, broadcasted from San Jose, CA via Cisco IPTV.

This technical oriented event is designed after Cisco's Internal Security SEVT meeting. Partner attendees will hear the latest news and information directly from Cisco's development teams and Business Units. Presentations will be delivered by Product Managers and Technical Marketing Engineers who are responsible for driving product direction and future enhancements to Cisco's Security product portfolio.

This event is a two part broadcast. Part I begins on Tuesday, April 11th at 11:00 AM and Part II on begins Wednesday April 12th at 11:00 AM.

The agenda for both dates is as follows:

Tuesday April 11  
11:00 - 11:15 Welcome  
11:15 - 12:00 PIX/ASA  
12:00 - 12:45 VPN  
1:00 - 2:00 NAC Framework  
2:00 - 3:00 NAC Appliance  
3:00 - 3:45 IOS VPN Update

Wednesday, April 12  
11:00 - 11:45 IOS - Router Security Threat Defense & SDM  
11:45 - 12:30 IPS  
12:30 - 2:00 NAC Appliance Design Session  
2:15 - 3:15 Cisco Security Manager  
3:15 - 4:15 MARS Update/Report Generation

Lunch will be provided on both days.
